SNEH PATEL

Full Stack Developer

Surat, Gujarat, India | +91 951-066-5899 | snehpatel1233@gmail.com | linkedin.com/in/sneh-patel-ab6302213 | github.com/SnehPatel03

Summary

Full Stack Developer and final-year Computer Engineering student (2027) with internship experience at Larsen & Toubro. Skilled in React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL and Prisma. Experienced in building full-stack applications, REST APIs, real-time systems, secure authentication and AI-integrated features. Seeking a Software Engineer or Full Stack Developer internship opportunity.

Skills

Languages: JavaScript, TypeScript, SQL, Python, C, C++, HTML, CSS
Frontend: React.js, Next.js, TanStack Query, Tailwind CSS, shadcn/ui, Electron.js, GSAP
Backend: Node.js, Express.js, REST APIs, ASP.NET / .NET, Socket.io, BullMQ
Databases & ORMs: PostgreSQL, Prisma ORM, Drizzle ORM, Redis, MongoDB, Qdrant
Integrations: Clerk (authentication), Stripe (payments), ImageKit
Tools: Git, GitHub, Linux, VS Code, Cursor, Jupyter Notebook
AI & Data: LangChain, LangGraph, RAG, Gemini, Groq, NumPy, Pandas

Experience

Full Stack Developer Intern **July 2026**
Larsen & Toubro (L&T) **Remote**
Tech Stack: *React.js, TypeScript, ASP.NET / .NET, REST APIs, Git, GitHub*

- Built responsive React.js and TypeScript interfaces with reusable components, integrated with backend REST APIs.
- Developed and integrated secure REST APIs using ASP.NET/.NET for reliable client-server communication.
- Delivered full-stack features end to end by connecting frontend components to backend endpoints.
- Used Git and GitHub for version control and team collaboration across coordinated development workflows.
- Debugged, tested and fixed application issues to maintain code quality and reliability.

Projects

OPAL | Next.js, TypeScript, shadcn/ui, TanStack Query, Electron, Express.js, Prisma ORM, Neon, Socket.io, Groq, Stripe, ImageKit **August – October 2026**
Live: https://opal-beige.vercel.app

- Architected OPAL, an end-to-end screen-recording platform with two clients on a shared backend: an Electron desktop recorder and a Next.js web app.
- Desktop: three-panel Electron app with media configuration for screen selection and audio device selection.
- Web: dashboard for all recordings with AI titles, transcripts, RAG, workspaces, comments, trimming, and sharing.
- Designed Express.js REST APIs, Socket.io real-time sync and notifications, and Stripe Free/Pro billing on Neon PostgreSQL with Prisma ORM.

Dropee | Next.js, PostgreSQL, Drizzle ORM, Clerk, ImageKit, Tailwind CSS **March 2026**
Live: https://dropee-s3.vercel.app

- Built Dropee, a secure cloud storage platform with folder-based file organization, file preview, and download management.
- Implemented a customized authentication flow with protected routes and user-specific access control.
- Developed advanced file management features including starred files, trash recovery, and permanent deletion workflows.

QuizSprint – Real-time Quiz App | TypeScript, React.js, PostgreSQL, Prisma ORM **January 2026**
Live: https://quiz-sprint-client.vercel.app

- Developed a multi-round, real-time interactive quiz application with automated qualification and elimination logic.
- Implemented round-based progression across three rounds with instant result evaluation and final winner determination.
- Built admin-driven quiz management tools for question creation, difficulty configuration, and quiz flow control.
- Designed a secure authentication system with email verification, protected routes, and forgot-password recovery flow.

WhisperPDF | React.js, TypeScript, Redis-Stack, LangChain, Gemini, Clerk, BullMQ, Qdrant **August 2025**
GitHub: https://github.com/SnehPatel03/WhisperPDF

- Designed and built WhisperPDF, a conversational PDF chatbot that answers questions from your documents using RAG.
- Delivered accurate, explainable answers with page-level citations for better trust and transparency.
- Scaled performance with background task queues and efficient vector retrieval for fast, reliable answers.

Education

Bachelor of Engineering (B.E.) in Computer Engineering **Graduation Year: 2027**
Gujarat Technological University — Surat, Gujarat **CGPA: 8.89 / 10**
Relevant Coursework: Algorithm Analysis, Data Science with Python, Agentic AI, Generative AI, Web Development
